## Rare Chromosome Disorder Awareness BECAUSE RARE IS JUST ONE WORD

Chromosome Disorder Outreach Inc. (CDO) is a non-profit organization that provides support, information, and advocacy to all those born with any rare chromosome disorder. CDO also works to promote research and raise awareness and understanding.

Over the years, CDO has helped thousands of individuals and families find information on the rarest of chromosome disorders, connected them with others who share their concerns, and above all else, let them know they are not alone. Learn more by visiting **[chromodisorder.org](http://chromodisorder.org)**.
